One click review of strategy to operations

Clarify vertical alignment and horizontal integration

# Proofpoint Summary

- Integrates and aligns key organizational performance information and makes it visible
- Ensures that you “get it right the first time” - easy to follow formats ensure that you never miss a critical step in analysis, planning, or execution
- Aligns strategic initiatives, objectives, and goals to increase successes across entire organization
- Provides in-depth project risk analysis
- Tracks how you’re doing while you’re doing it – make small corrections early – not big ones later
- Accelerates implementation of best solution(s) while ensuring consistency and quality

Proofpoint is a SDVOSB  
with proven past performance  
in DoD

# Federal Customer Quotes

***“Proofpoint is Six Sigma on steroids.”***

Staff Officer, JFCOM

***“You guys did great work!”***

Col Tom Snyder, AFMC

***“GREAT reports package!”***

Manpower leader, DoD

***“The Proofpoint results are excellent and just the info I asked for.”***

***“I feel very good about this project.”***

VAdm Jeffrey Weiringa, DSCA

***“The attempted systems of my past have nearly always required double or triple entry of data, amassed data in operationally nonsensical ways, and ultimately I was back where I started. Proofpoint's systems seem to circumvent (all that). You can understand why I'm intrigued.”***

4-star Commander, USMC  
(Name to be provided orally)

***“The government is asking for dashboards on everything and companies are having to customize their applications to accommodate. You already have it.”***

Former ERP Integration Manager, DoE

***“Intuitive! Outstanding product.”***

Mr. Garry Shafovaloff, DAU
